

Sunpipe™ Blaze TL

Utilizing Nature's Gift.®

SKYSPAN
AUSTRALIA PTY LTD

Sunpipe™ Blaze has been specifically designed for Australian bushfire areas. In place of the Standard Acrylic Dome, Laminated Safety Glass is provided to give a non-combustible lining to the roof to repel burning bushfire embers. Shown here with Ember Guard installed.

The Skyspan™ Sunpipe Blaze is manufactured to comply with the Australia Standard AS1288 and is covered by a seven (7) year guarantee.

Sunpipe™ Blaze - GTL

MANUFACTURE

Flashing and Frame

STANDARD MATERIALS

0.75mm Zinalume® steel spot welded for superior strength.

STANDARD FINISH

☒ Mill

CUSTOM FINISH

Powder coated to match **Colorbond** colour range. See pg. 7

Glass

STANDARD COLOUR

☒ Clear

STANDARD MATERIALS

10.38mm laminated safety glass.

TYPICAL INSTALLATION

Roof pitch range:  0°-45°

ENERGY RATING

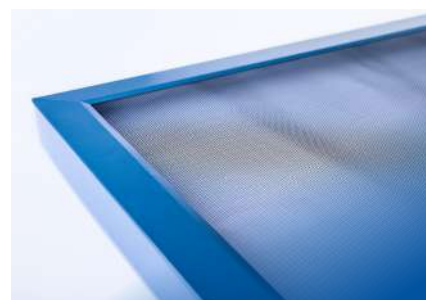

SHGC 0.74 / U-Value 5.6

BAL RATING - 29*

Complies with Bushfire AS 3959-2009

* Rating based on installations above 18°. Refer to Ember Guard above.

EMBER GUARD

An extra level of protection on roofs pitched below 18° and to meet BAL-29 requirements. The Skyspan Bushfire Ember Guard is manufactured from black stainless steel flyscreen mesh.

WHERE TO USE

Suitable for any room where structurally compatible.

Ideal for:

INCLUSIONS

- Flexible Shaft
- Collar
- Diffuser
- Ceiling Trim

Concave Diffuser

Available in both Prisma™ & WarmGlo™

Flat Diffuser

Available in both Prisma™ & WarmGlo™

DIFFUSER TYPES

- Prisma™** The standard diffuser is a Clear Prismatic Diffuser that eliminates glare and produces an even spread of light by the female conical prism refracting properties.
- WarmGlo™** The option diffuser is available in both flat and convex shape. The WarmGlo Diffuser is a frosted white translucent diffuser that eliminates glare and produces a bright light that is softened for visual comfort.

Sunpipe™ Blaze - Non Vented (GTL)

Common Sizes Ships in up to 10 Business Days (Add 2 Days for Powder Coating)
